XXL	122-126 cm	106-110 cm	124-128 cm

How to measure:

Take your measures. If you are unsure how please check the model below. Compare your measures in the size guide above to find out what size suits you best. The size guide indicates an approximate size.

When you measure your measurements to buy a skirt, the Seat measure is the most important. The waist might feel a little big on some of the items, but it's easier to sew in than to try to make the item bigger.
